

## NOVASPAN MECHANICAL ASSIST & HANGING RAIL

### Features of the system include:

- Mounted on heavy duty steel chassis carriageways and roller system.
- Diagonally braced internally for maximum latitudinal rigidity and minimal structure flex to help prevent wear on moving parts.
- Easy "clip-in", "clip-out" modular horizontal beams to allow easy adjustment of shelf levels to maximize storage efficiencies of many and varied product sizes and weights.
- Incorporated heavy duty modular "clip-in" hanging rails for storage of garments.
- Ergonomic handle with folding hand wrench for easy and safe operation all moving parts covered to prevent catching or damage to the product being stored designed for minimal rolling friction to prevent operator fatigue or injury.
- Attractive "two-toned" epoxy powder-coated components to enhance the aesthetics.

### Compliance

Novalok will work with management to ensure all structures are fire compliant. This may include providing a modular wire mesh deck shelf system with under support.

### Sales Support & Maintenance

Full after sales support is available from Novalok's design team to store operators on best operational use of the systems. A full maintenance programme can be set in place to ensure minimal damage/wear ongoing with operation of the systems. Novalok is committed to excellent after sales service and support for all our customers.

### Sizes Available (Note: custom sizes also available)

SHELVING HEIGHTS AVAILABLE (mm):

900 • 1200 • 1800 • 2400 • 3000

SHELF DEPTHS AVAILABLE (mm):

450 • 600 • 900

### NOVASPAN WEIGHT CAPACITIES

60mm Z Beams	80mm Z Beams
1200mm - 700kg UDL	1200mm - 1000kg UDL
1500mm - 500kg UDL	1500mm - 900kg UDL
1800mm - 375kg UDL	1800mm - 780kg UDL
2400mm - 230kg UDL	2400mm - 450kg UDL
2700mm - 150kg UDL	2700mm - 360kg UDL
